

→ DESCRIPTION

A highly concentrated liquid laundry detergent with enzymes to remove blood and stains.

→ BENEFITS

- Highly concentrated and very economical
- Contains a blend of enzymes to help break down blood stains and many other food deposits
- High Foaming
- Performs in all water conditions

→ APPLICATION

Domzyme is suitable for use in both commercial and domestic front and top loading washing machines.

→ DIRECTIONS FOR USE

If blood stains are present, always wash or soak in cold water.

TOP LOADER:

Machine Size	WASHING MACHINE CAPACITY			
	4kg	6kg	8kg	10kg
mL's per wash	63mL	75mL	100mL	125mL

FRONT LOADER:

Machine Size	WASHING MACHINE CAPACITY			
	4kg	6kg	8kg	10kg
mL's per wash	25mL	38mL	50mL	63mL

HAND WASHING:

For hand washing use from 30-60mL in a laundry trough. Agitate garment gently. Rinse in clean water and dry lying flat on a towel out of direct sunlight.

For hard to remove stains, pour Domzyme directly onto the stain, rub in, then leave for a few minutes before adding to the wash. An oxygen bleach can be used with Domzyme for bleaching activity. Chlorine bleaches are not recommended as they destroy the enzymes.

For accurate dispensing and ease of use the 5L bottle can be fitted with a 30ml pump.
