

→ DESCRIPTION

A TGA listed hospital grade surface spray disinfectant.
AUST L 399951

Dominant® Actizone® is a hospital grade disinfectant cleaner with 24-hour antimicrobial activity against a broad spectrum of bacteria, Vaccinia virus Ankara and Influenza A (H1N1).

→ BENEFITS

- Up to 24-hour residual efficacy against bacteria, Vaccinia virus Ankara and Influenza A (H1N1) - **even when surfaces are repeatedly contaminated by touch** (provided surface is not wiped or rinsed after application)
- Kills 99.9% of bacteria & viruses including:
 - SARS-CoV-2 (COVID-19) in 5 minutes
 - Influenza A (H1N1) in 5 minutes
 - Respiratory syncytial virus (RSV) in 5 minutes
 - Vaccinia virus (Monkeypox virus) in 5 minutes
 - Feline calicivirus (Norovirus) (Gastroenteritis) in 10 minutes
- Provides a residue-free shine

→ APPLICATION

Dominant® Actizone® is a ready-to-use formulation and can be used to clean and disinfect surfaces not intended to come into contact with foodstuffs. It ensures a residue-free cleaning of laminate, polycarbonate, glass, steel and other non-porous solid surfaces. For use on a range of frequent touchpoint surfaces including countertops, door handles, tray tables, handrails, desks, and light switches.

Incompatible surfaces
Porous surfaces

→ AVAILABLE IN

Product	Code
8 x 750mL Bottles	C29836

→ DIRECTIONS FOR USE

Hold the spraying device 20cm from surface and spray until thoroughly wet. For disinfection, let stand for at least 5 minutes before wiping or rinsing. For disinfection against Norovirus (Gastroenteritis), let stand for at least 10 minutes before wiping and rinsing. Pre-clean heavily soiled surfaces.

The product is effective against bacteria and viruses** with long-lasting bactericidal and virucidal activity for at least 24 hours. For 24-hour performance, apply until uniformly wet and let to air dry. For food contact surfaces, rinse with water.

**24 hour residual efficacy against bacteria, Vaccinia virus Ankara and Influenza A (H1N1)

Cleaning and disinfecting product not for use on skin. Not to be used on medical devices or other therapeutic goods. For spray application only. Always read the label before use. Do not mix with detergents or other chemicals. Store in a cool place away from sunlight.
