

→ DESCRIPTION

MOX is a hydrogen peroxide based cleaner, destainer and sanitiser.

→ BENEFITS

- High foaming detergents provide long contact time allowing the oxygen bleach and sanitiser to work effectively
- Contains hydrogen peroxide for excellent destaining
- Contains a quaternary sanitiser to kill bacteria
- Mildly acidic

→ APPLICATION

MOX is suitable for use on a range of industrial CIP (Clean-in-Place) applications including food and beverage processing and meat works.

→ DIRECTIONS FOR USE

1. Hose down equipment first to remove any bulk soiling, then foam on MOX at dilutions from 1:20 to 1:80.
2. Leave MOX to act for 10 minutes then hose off with fresh water.

MOX contains oxygen bleach. Store in a cool area and rotate stocks to use oldest material first. Do not mix with any other chemicals, particularly chlorinated substances.
