

## TESTING SUMMARY - DOMCHLOR

DOMCHLOR is a hospital-grade chlorinated disinfectant for managing infection control and disinfecting hard surfaces, proven to be effective in killing a broad range of bacteria and SARS-CoV-2 (COVID-19).

It is listed on the Australian Register of Therapeutic Goods (ARTG), AUST L 388764 (ARTG Certificate supplied upon request).

DOMCHLOR disinfects under clean conditions and has undergone third party testing to ensure it is effective against the following bacteria and viruses:

- Clostridioides Difficile (C. Diff)
- Murine Hepatitis Virus (Coronavirus)
- Escherichia Coli (E. Coli)
- Proteus Vulgaris (P. Vulgaris)
- Pseudomonas Aeruginosa (P. Aeruginosa)
- Staphylococcus Aureus (S. Aureus)
- Salmonella Choleraesuis (S. Choleraesuis)
