

BACBAN

→ DESCRIPTION

A quaternary based, no-rinse air dry sanitiser for hard, non-porous food contact surfaces including utensils and equipment.

→ BENEFITS

- Provides sanitation without the need to rinse surfaces afterwards
- Highly concentrated making it extremely economical
- Kills more than 99.9% of bacteria on clean surfaces
- Quaternary ammonium based sanitiser containing 1.5% quaternary ammonium compound
- Used at the recommended dilution rate, Bacban provides 200ppm quaternary ammonium compound
- Neutral pH

→ APPLICATION

Bacban is suitable for use in all food contact and preparation areas.

→ DIRECTIONS FOR USE

Thoroughly clean all surfaces with a suitable detergent solution and rinse with fresh water before sanitising with Bacban. It is important to cover the entire area that needs sanitising with the Bacban solution.

Use at recommended dilution rate. If used stronger than recommended, surfaces must be rinsed before processing food.

Do not spray over food. Do NOT use as a food sanitiser. Surfaces must be adequately drained before processing operations resume. Do not mix with soap or detergents as this will deactivate the active ingredient.

Application	Surface Soil Level	Dilution Rate	Dilution Rate mLs	Directions
Spray Bottle	Clean	1:75	10mL/750mL	Spray and Leave
Spray Pack Sprayer	Clean	1:75	67mL/5L	Spray and Leave

At least once a week, empty bottle, rinse with water and allow to dry before refilling.

No Rinse Sanitiser
