

LINE LUBE

Lubricant

→ DESCRIPTION

Slat conveyor lubricant.

→ BENEFITS

- Reduces friction between moving conveyor parts allowing free movement of bottles along the line or where accumulators are used
- Contains a specialised blend of surfactants, sequestrants and biocides that lubricate surfaces while keeping them clean
- Suitable for use in hard or soft water, with scale inhibitors that keep nozzles clean and free of build-up
- Formulated with a biocide to effectively prevent mould forming on the lines
- Biodegradable ingredients
- Defoaming properties to prevent lubricant from coating bottles, ensuring sufficient label adhesion

→ APPLICATION

Suitable for food and beverage facilities with slat chain conveyor lines.

→ DIRECTIONS FOR USE

Line Lube is typically applied directly to lines through spray lubrication systems. The recommended dose is 0.5 – 1.0% v/v of Line Lube in clean water, ensuring the conveyors stay lubricated and clean.

Suitable for use with all glass bottles. Do not use with polycarbonate containers.
