

MICRO BLEACH

Chlorine Bleach Liquid

→ DESCRIPTION

Micro Bleach forms part of the Micro Active Laundry System. It features Protekta Cap for safe connection to the Micro Active dispensing system.

→ BENEFITS

- Highly concentrated formulation to give an economical cost per wash
- Automatically feeds directly to the washing machine at accurate dosage
- Featuring Dominant's proprietary Protekta® Cap, a notouch system ensuring staff are never exposed to the product
- Lightweight packaging with minimal bottle change over
- Removes stains from white fabrics
- Contains 5% available chlorine
- Wash discharge is always within water authority limits and safe for septic systems
- Independently tested at an independent TGA and NATA registered laboratory
- Micro Bleach passed BS EN 1276:2009 against Staphylococcus aureus and Escherichia coli*

→ APPLICATION

For use in commercial laundries through Dominant's Micro Active Laundry System.

→ DIRECTIONS FOR USE

Use in conjunction with Dominant's other Micro Active System products such as Micro Break, Suds, and Soft for best results. Dispense using Dominant's Micro Active System Dispenser. This automatically feeds Micro Bleach directly to the washing machine at accurate dosage.

Your Dominant Technical Representative will install and monitor the system to ensure compliant results every wash. To change bottles unscrew the pickup connector from the empty bottle, remove the cap from the new bottle and screw on pickup connector.

* Test passed at a rate of 5mL/L, with 8 minutes contact time, at 25°C, under clean conditions (ie. after wash).
