

TECHNICAL BULLETIN

Air Deodoriser - RTU

Product Description

Air Deodoriser is a highly effective multi-purpose product that delivers a lasting blood orange fragrance, exceptional odour neutralising properties and sanitising properties that eliminate bacterial odours at the source.

The odour neutralising ingredients in the product assist in trapping and removing a variety of airborne odours commonly encountered in domestic and commercial environments.

Applications

Air Deodoriser can be applied to all hard surfaces and a variety of soft surfaces, such as carpets, fabric seating and curtains, to deodorise and minimise bacterial growth.

Simply spray into the air, or lightly onto surfaces, for general odour control.

Spot test product before use on soft surfaces to ensure compatibility.

Product is not recommended for use on direct food contact surfaces. If this occurs, simply wipe off with a clean cloth or use Dominant Spray & Wipe.

Technical Data

Air Deodoriser contains odour-neutralising ingredients, plant-based biodegradable surfactants, ethanol derived from corn or wheat and a blood orange fragrance containing d-limonene derived from citrus fruits.
