CROYDON PARK. S.A. 5008.

Attention - Mr. C.G. Astley.

Dear Sir,

Re: Evaluation of 'Pink Panther' Disinfectant

The product 'Pink Panther' was evaluated according to the prescribed T.G.A. test for Hospital Grade Disinfectants under 'clean' conditions.

The product was evaluated at a dilution of 1:80 against the organisms Pseudomonas aeruginosa NCTC 6749, Staphylococcus aureus NCTC 4163, Proteus vulgaris NCTC 4635 and Escherichia coli NCTC 8196.

The tests were performed in triplicate utilizing fresh cultures and solutions on each occasion.

The results are presented overleaf.

RESULTS - 'Pink Panther' Disinfectant
'Clean' conditions.

Pseudomonas aeruginosa NCTC 6749

Test	Dilution	Count (orgs/ml)	Recovery 1	Broths 2	Result
1	1:80	5.0×10^8	-----	-----+	Pass
2	1:80	7.2×10^8	-----	-----	Pass
3	1:80	4.5×10^8	----++	----++	Pass

Staphylococcus aureus NCTC 4163

Test	Dilution	Count (orgs/ml)	Recovery 1	Broths 2	Result
1	1:80	2.6×10^8	-----	-----	Pass
2	1:80	4.0×10^8	-----	-----	Pass
3	1:80	2.3×10^8	-----	-----	Pass

Escherichia coli NCTC 8196

Test	Dilution	Count (orgs/ml)	Recovery 1	Broths 2	Result
1	1:80	2.9×10^8	-----	-----	Pass
2	1:80	5.5×10^8	-----	-----	Pass
3	1:80	7.1×10^8	-----	-----	Pass

Proteus vulgaris NCTC 4635

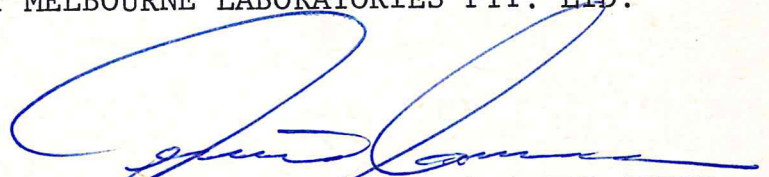

Test	Dilution	Count (orgs/ml)	Recovery 1	Broths 2	Result
1	1:80	8.1×10^8	----+	----+	Pass
2	1:80	6.3×10^8	-----	--+++	Pass
3	1:80	6.7×10^8	----+	----+	Pass

The product 'Pink Panther' was found to meet the requirements of the prescribed T.G.A. test for Hospital Grade Disinfectants under 'clean' conditions at a dilution of 1:80.

All test controls conformed to the requirements of the test procedure.

Yours faithfully,
THE EAST MELBOURNE LABORATORIES PTY. LTD.
