

CROSS LINK STRIP

Polish Stripper

→ DESCRIPTION

A cross-linked alkaline polish stripper for removing finish from floors.

→ BENEFITS

- Contains a blend of alkalis, detergent, solvent and an amine to remove the finish
- Effectively strips polishes off floors
- Free from ammonia
- Can be used in areas with poor ventilation

→ APPLICATION

Suitable for removal of polish on vinyl and linoleum floors.

→ DIRECTIONS FOR USE

HOW TO USE

1. Use at dilutions from 1:1 for a very heavy polish build up to 1:10 for low levels of polish, making up solutions in warm water. Mop liberally onto floor, then scrub with brush or stripping pad.
2. Pick up slurry with wet pick up or mop, and rinse with plenty of water.
3. Floor is ready for resealing when dry.

IMPORTANT INFORMATION

It is important when stripping floors to work a section at a time, and not allow the slurry to dry on the floor before it has been rinsed with plenty of clean water.
