

Alcohol-Based Hand Sanitiser

Technical Bulletin

**Dominant**

Product Description

Alcohol-Based Hand Sanitiser is the WHO (World Health Organisation) approved formulation that is suitable for use in healthcare facilities.

This product will sanitise clean hands and evaporates rapidly. This makes it ideal for use in places where hand washing facilities are not available, or where sanitising after hand-washing is required.

Applications

Dispense on pump (2-3mL) onto hands and work product thoroughly across all areas of the hands.

Technical Data

Alcohol-Based Hand Sanitiser is an transparent, thin liquid containing 80% v/v ethanol.

Alcohol-Based Hand Sanitiser has a pH about 7.5-8.5 in the neat form.
