

Blizzard

Technical Bulletin

Product Description

Economical automatic machine dishwashing liquid suitable for moderately hard water conditions.

Applications

Blizzard is automatically dispensed by an electronic feeder supplied on loan from Dominant. Simply change the drum when empty.

Blizzard is a caustic product. Always wear safety goggles and chemical resistant gloves when changing drums.

Blizzard must only be used with an electronic feeder on a commercial dishwasher. Never add manually or use for manual dishwashing.

Store in a secure area that can be locked and segregate from any incompatible materials.

Technical Data

Blizzard is based on sodium hydroxide, a strongly caustic ingredient. It also contains a blend of water softening agents, corrosion inhibitors and soil dispersants. Blizzard is non foaming. The normal use level is between 2.0 – 2.5g/l.

Pack Sizes
