loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.

**Skin Contact:** Effects may be delayed. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If swelling, redness, blistering or irritation occurs seek medical assistance.

**Eye contact:** If in eyes wash out immediately with water. In all cases of eye contamination it is a sensible precaution to seek medical advice.

**Ingestion:** Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious patient. If vomiting occurs give further water. Seek medical advice.

**Self-protection for the first aider:** Wear safety shoes, overalls, gloves, safety glasses. Available information suggests that gloves made from nitrile rubber should be suitable for intermittent contact. However, due to variations in glove construction and local conditions, the user should make a final assessment. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

**Most important symptoms and effects, both acute and delayed:** Refer to Section 11 for Toxicological Information.

**Advice for firefighters:** Not combustible, however following evaporation of aqueous component residual material can burn if ignited

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures:** Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of vapours or dust. Work up wind or increase ventilation.

**Environmental precautions:** Contain - prevent run off into drains and waterways. If contamination of sewers or waterways has occurred advise local emergency services.

### Methods and material for containment and cleaning up

**Small spills:** Wipe up with absorbent (clean rag or paper towels). Allow absorbent to dry before disposing with normal household garbage.

# Safety Data Sheet

**Large spills:** Clear area of all unprotected personnel. Use absorbent (soil, sand or other inert material). Sweep or vacuum up, but avoid generating dust. Collect and seal in properly labelled containers or drums for disposal.

**Reference to other sections:** Refer to Section 13 for Disposal Considerations

## 7. HANDLING AND STORAGE

**Precautions for safe handling:** Avoid eye contact and repeated or prolonged skin contact. Avoid inhalation of dust.

**Conditions for safety storage, including any incompatibilities:** Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from foodstuffs. Store away from incompatible materials described in Section 10. Store away from sources of heat and/or ignition. Keep container standing upright. Keep containers closed when not in use - check regularly for leaks.

**Specific end use:** Observe instructions of use

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION
