

Technical Data Sheet

FORTIS GLUE RELEASE

FEATURES

- Easy application
- Protects equipment
- Allows glue to be easily removed
- Reduces cleaning time
- Can be used on moving parts
- Low odour
- No silicone
- Zero VOCs

TYPICAL APPLICATION

- Spray booths
- Woodworking equipment
- Clamps, machinery, benches

TECHNICAL DATA

Appearance: White or creamy liquid

Application temperature: for cold
gluing applications up to 38 °C

Service temperature: 5-38 °C

FORTIS GLUE RELEASE is a temporary water-based wax emulsion coating that allows surfaces to repel glue, adhesives, and resins. It coats and protects equipment from dried glue mess and reduces cleaning time. Regular application improves equipment longevity by reducing the need for harsh cleaning that may damage equipment.

APPLICATION

Fortis Glue Release can be easily brushed, wiped, rolled, or sprayed onto the application surface. Apply liberally to all areas where required.

Remove coating and cured adhesive mechanically at the end of the day, then re-apply following clean up.

LIMITATIONS

No recommended for use on porous surfaces, or walkways (slip hazards)

CLEAN UP

Once dried, can be easily scraped off mechanically, removing cured glue mess with the coating.

SAFETY

- Please refer to Material Safety Data Sheet prior to use.
- Store in cool, dry conditions, out of direct sunlight and in a well-ventilated area. DO NOT store below 5°C or over 50°C.
- Good industrial hygiene should be observed at all times – Appropriate PPE should be worn including impervious gloves & eye wear.

PACK SIZE

20 L pail

SHELF LIFE

12mths @ 25°C unopened

For further information, refer to the Fortis website www.fortisadhesives.com.au It contains not only the Safety Data Sheets but also technical bulletins on adhesive applications and surface preparation.
