Non-Hazardous Substance, Non-Dangerous Goods

1. MATERIAL AND SUPPLY COMPANY IDENTIFICATION

| Product Name : | Elite Prepcoat Acrylic Sealer Undercoat |
|--|--|
| Product Code : | EPASU |
| Product Use : | As a high quality low odour water based acrylic sealer undercoat for wallboard, timber and fibrocement. |
| Company Name : ABN : Address : Emergency Telephone : Telephone Number : | Haymes Paint 14 004 201 638 Waringa Drive, Wendouree Industrial Park, Victoria 3355, Australia. 03 5342 6200 . Office Hours : 7-30 to 5-30 Monday to Friday. Tel: 03 5342 6200 . Office Hours : 7-30 to 5-30 Monday to Friday. |
| 2. HAZARDS IDENTIFICAT | ION |
| GHS Classification : | Based on available information, this material is classified as Non-hazardous according to health criteria of Safe Work Australia. |
| The Standard for the Uniform | Scheduling of Medicines and Poisons No. 34. Not Scheduled. |
| DANGEROUS GOODS CLASSIFI | CATION : |
| Not classified as Dangerous Go | ods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road and Rail' |

First Aid Facilities :Eye wash and normal washroom facilities.Advice to Doctor :Treat symptomatically.

| | 5 |
|---|--|
| Specific Hazards : | Non-combustible material. |
| Fire fighting further advice : | Not combustible, however following evaporation of aqueous component residual material can burn if ignited. On burning may emit toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion. |
| Hazchem Code : | Not applicable |
| Suitable extinguishing media : | If material is involved in a fire use water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical). |
| 6. ACCIDENTAL RELEASE ME | ASURES |
| Small Spills : | Wear protective equipment to prevent skin and eye contamination. Wipe up with absorbent (clean rag or paper towels). Allow absorbent to dry before disposing with normal household garbage. |
| Large Spills : | Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of vapours. Work up wind or increase ventilation. Contain - prevent run off into drains and waterways. Use absorbent (soil,sand or other inert material). Collect and seal in properly labelled containers or drums for disposal. If contamination of sewers or waterways has occurred advise local emergency services. |
| Dangerous Goods - Initial Emerge | ency Response Guide No : Not applicable. |
| 7. HANDLING AND STORAGE | |
| Handling : | Keep out of reach of children. Avoid eye contact and repeated or prolonged skin contact and inhalation of any vapour. |
| Storage: | Store in a cool, dry, well-ventillated place and out of direct sunlight. Store away from incompatible materials described in Section 10. Keep containers closed when not in use. |
| | Check regularly for leaks. |
| 8. EXPOSURE CONTROLS AN | Check regularly for leaks. |

D PERSONAL PROTECTION standards : No value assigned for this specific material by Safe Work Australia. As per the "National Model Regulations for the Control of Workplace Hazardous Substances (Safe Work Australia)" the ingredients in this material do not have a Biological Limit Allocated. Use only in well ventilated areas. Keep containers closed when not in use. |
| National occupational exposure s Biological Limit Values : Engineering measures : Protective Equipment Wear overalls, safety glasses and be suitable for intermittent conta a final assessment. | Check regularly for leaks. DPERSONAL PROTECTION standards : No value assigned for this specific material by Safe Work Australia. As per the "National Model Regulations for the Control of Workplace Hazardous Substances (Safe Work Australia)" the ingredients in this material do not have a Biological Limit Allocated. Use only in well ventilated areas. Keep containers closed when not in use. OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES. impervious gloves. Available information suggests that gloves made from nitrile rubber should |

9. PHYSICAL AND CHEMICAL PROPERTIES

| Appearance : | White viscous liquid. |
|--|-----------------------|
| Odour : | Low |
| Odour Threshold : | Not Available |
| Solubility : | Miscible in water |
| Specific Gravity (20 degC) : | 1.2 - 1.4 |
| Relative Vapour Density (air=1) : | >1 |
| Vapour Pressure (20degC) : | Not available |
| Flash Point (degC) : | Not applicable |
| Flammability Limits (%) : | Not applicable |
| Autoignition Temperature (degC) : | Not applicable |
| Melting Point/Range (degC) : | Not available |
| Boiling Point/Range (degC) : | >100 |
| рН : | 8-10 |
| Viscosity : | Not available |
| Total Volatile Organic Compounds (VOC) : | Not available |

| 10. STABILITY AND REACTIVITY | |
|------------------------------------|---|
| Reactivity : | No reactivity hazards are known for this material. |
| Chemical stability : | This material is thermally stable when stored and used as directed. |
| Hazardous reactions : | No known hazardous reactions. |
| Conditions to avoid : | Elevated temperatures. |
| Incompatible materials : | Incompatible with oxidising agents. |
| Hazardous decomposition products : | Oxides of carbon and nitrogen, smoke and other toxic fumes. |

11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

| Inhalation : | Where this material is used in a poorly ventillated area, at elevated temperature or in confined spaces, vapour may cause irritation to mucous membranes and respiratory tract, headache and nausea. |
|--------------------|--|
| Skin contact : | Contact with skin may result in irritation. |
| Ingestion : | No adverse effects expected, however large amounts may cause nausea and vomiting. |
| Eye contact : | May be an eye irritant. |
| Acute toxicity : | This product has been classified as Non-hazardous. |
| Chronic toxicity : | This product has been classified as Non-hazardous. |

12. ECOLOGICAL INFORMATION

Avoid contaminating waterways.

| Ecotoxicity : | No information available |
|---------------------------------|--------------------------|
| Persistence and degradability : | No information available |
| Mobility : | No information available |

Elite Prepcoat Acrylic Sealer Undercoat 11/10/21 2.1

13. DISPOSAL CONSIDERATIONS

Persons conducting disposal, recycling or reclamation activities should ensure that appropriate personal protection equipment is used, see "Section 8. Exposure Controls and Personal Protection" of this SDS.

If possible material and its container should be recycled. If material or container cannot be recycled dispose in accordance with local, regional, national and international regulations.

| 14. TRANSPORT INFORMATION | | |
|---------------------------|--|--|
| Road and Rail Transport : | Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road and Rail". | |
| Marine Transport : | Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG) Code) for transport by sea. | |
| Air Transport : | Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air. | |

15. REGULATORY INFORMATION

Based on available information, this material is not classified as hazardous according to health criteria of Safe Work Australia. NON-HAZARDOUS SUBSTANCE.

The Standard for the Uniform Scheduling of Medicines and Poisons No. 34. Not Scheduled.

All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS), or exempted.

16. OTHER INFORMATION

This Safety Data Sheet has been prepared by Haymes Paint Technical Department.

Reason(s) for issue : 5 Yearly Revision.

Safety Data Sheets are updated frequently. Please ensure that you have a current copy.

Literature References : Globally Harmonised System of Classification and Labelling of Chemicals (GHS), 7th revised edition, United Nations, 2017.

Model Codes of Practice: Classification and labelling of workplace hazardous chemicals, and preparation of safety data sheets for hazardous chemicals - Safe Work Australia, July 2020.

This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplacve. Since Haymes Paint cannot anticipate or control the conditions under which the product may be used, prior to usage, review the SDS in the context of how the user intends to handle and use the product in the workplace.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company.
