

Material Safety Data Sheet

CS: 1.4.21

Page: 1 of 3

Infosafe No™ 1HAWF Issue Date :October 2010 RE-ISSUED by HAYMES CS: 1.4.21

Product Name **INTERIOR EXPRESSIONS MATT ACRYLIC WHITE**

Not classified as hazardous according to criteria of NOHSC

COMPANY DETAILS

Company Name HAYMES PAINT
Address P.O Box 167 WENDOUREE
VICTORIA 3355 Australia
Tel/Fax Tel: 03 5342 6200 . Office Hours : 7-30 to 5-30 Monday to Friday

IDENTIFICATION

Product Code MAW
Product Name INTERIOR EXPRESSIONS MATT ACRYLIC WHITE
Poisons Schedule Not Scheduled
Product Use As a high quality matt 100% acrylic finish for use on interior walls and ceilings.

Physical Data

Appearance White viscous liquid.
Melting Point Not Available
Boiling Point Initial boiling point 100°C
Vapour Pressure As for water.
Specific Gravity Approx. 1.2 to 1.4
Flash Point Not applicable; water based paint.
Flamm. Limit LEL Not applicable
Explosion Data Not applicable

Other Properties

Volatile Component Approximately 0%
Autoignition Temp. Not applicable
Vapour Density Approx. 1
pH Value 8 - 10
Odour Low odour
Form Liquid
Decomposition Temperature Not available
Formula N/A.
Molecular Weight Not applicable
Other Information Emulsifiable mixture.

Ingredients

Ingredients	Name	CAS	Proportion
	Pigment - Inorganic and/or organic	Non-hazardous	30-55 %
	Polyacrylate emulsion	PROPRIETARY	10-40 %
	Water	7732-18-5	15-25 %
	Extenders, defoamer, dispersant and thickeners	PROPRIETARY	10-25 %

Other Information Water based coating consisting of a polyacrylate emulsion plus stabilisers, pigment, extenders, dispersants, defoamer and a bactericide.

Product Name **INTERIOR EXPRESSIONS MATT ACRYLIC WHITE**

Not classified as hazardous according to criteria of NOHSC

HEALTH HAZARD INFORMATION

Health Effects

Acute - Swallowed	No adverse effects expected due to swallowing of small amounts incidental to industrial handling. However it is good work practice to avoid ingestion of product.
Acute - Eye	May cause slight eye irritation.
Acute - Skin	Contact with skin will result in mild irritation. Repeated or prolonged skin contact may lead to irritation.
Acute - Inhaled	No adverse effects anticipated by this route of exposure. However it is good work practice to avoid prolonged inhalation of the vapours which may cause slight irritation of nose and respiratory tract.
Chronic	No information available for this product.
Other Information	N/A.

First Aid

Swallowed	If swallowed, rinse mouth thoroughly with water. Give water to drink, DO NOT induce vomiting. Seek medical advice.
Eye	If in eyes wash with flowing water for at least 15 minutes. Seek medical if effects persists.
Skin	Wash affected areas with copious quantities of water.
Inhaled	If effects occur remove to fresh air. Seek medical attention.
First Aid Facilities	No other information available.

Advice to Doctor

Advice to Doctor No specific antidote. Supportive care. Treat symptomatically.

Other Health Hazard Information

PRECAUTIONS FOR USE

Exposure Limits	None established for this product. Paint contains titanium dioxide(C.I. Pigment White 6), calcium carbonate (chalk,whiting) each of which has a WES, but solids are bound into the paint and as such the applicable standards are not meaningful.
Eng. Controls	Use in a well ventilated area only.
Other Information	No other information available.

Personal Protection

Protective Equip.	Avoid skin and eye contact. Wear clean body-covering clothing. Use gloves that provide a water barrier and wear safety glasses. Wash hands thoroughly before eating or drinking.
--------------------------	---

Flammability

Fire Hazards Non combustible. Non flammable.

SAFE HANDLING INFORMATION

Storage and Transport

Transport	Not classified as Dangerous Goods, according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
Storage and Transport	Not classified as a dangerous good for transport by road or rail in the Australian Dangerous Goods Code. Store in a cool place out of direct sun.
Other Storage Info.	Read the use instructions on the label and observe recommendations.

Spills and Disposal

Material Safety Data Sheet

CS: 1.4.21

Page: 3 of 3

Infosafe No™ 1HAWF Issue Date :October 2010 RE-ISSUED by HAYMES CS: 1.4.21

Product Name **INTERIOR EXPRESSIONS MATT ACRYLIC WHITE**

Not classified as hazardous according to criteria of NOHSC

Spills & Disposal Contain using sand and earth - prevent runoff into drains and waterways. Prevent contamination of sewers, drains and waterways. Collect wastes and store in labelled containers for disposal. Dispose of waste materials in approved landfill. Wash residues from contaminated area with copious quantity of water.

Fire/Explosion Hazard

Fire/Explos. Hazard Product is water based emulsion and will not burn. Dried resin may burn. Use water to extinguish burning dried resin.

Hazardous Reaction Stable at normal conditions. Addition of chemicals and freezing temperatures may cause coagulation.

OTHER INFORMATION

Toxicology No acute or chronic toxicity data available for this product. If recommended precautions for handling and use are adhered to no adverse effects are anticipated. Trace residual monomers in the polymer emulsion are not considered to present a significant hazard under normal work practices and conditions.

Environ. Protection No data available for this formulation. May be harmful to aquatic life. Avoid contamination of waterways, drains or sewers. Dilution in water will make the water milky and possibly solids in the paint will separate and sink to bottom of system.

Pkg. & Labelling No specific requirements with respect to dangerous goods regulations, workplace OH & S regulations or poisonous substances control regulations. Paint conforms with the Uniform paint Standard, Schedule 'P' of SUSDP.

Regulatory Information Manufacturers Advice

When surfaces, previously sealed with this coating or similar coatings containing titanium dioxide and/or kaolin and/or calcium carbonate, are prepared by dry sanding or dry blasting techniques it is recommended that an air-purifying (dust) respirator be worn to control the inhalable dust concentrations to less than the recommended Workplace Exposure Standards published by Worksafe Australia (See reference below). For some operations local exhaust ventilation may be required to meet this level of control.
