

GREEN COBRA

TOTALLY BIODEGRADABLE NON-FLAMMABLE CLEANER/SANITISER

DESCRIPTION

GREEN COBRA is an alkaline coil, evaporator and condensor cleaner. **GREEN COBRA** uses the latest phosphate ester technology to prevent corrosion.

APPLICATIONS

GREEN COBRA was developed especially for air conditioning and refrigeration distributors, for sale to bus and trucking companies, large electrical firms and contractors and air conditioning and refrigeration maintenance companies.

TECHNICAL DATA

FORM: Liquid
COLOUR: Green
DETERGENCY: Excellent
TOXICITY: Non-Toxic
WETTING ABILITY: Excellent
STORAGE ABILITY: 2 Years +
EVAPORATION RATE: Slow
PHOSPHATES: Nil

ODOUR: Faint/Sweet
SOLUBILITY IN WATER: 100%
SPECIFIC GRAVITY: 1.0 to 1.2
% VOLATILE BY VOLUME: 80%
pH: 13+
COLD STABILITY: Stable
BIODEGRADABILITY: Yes

DIRECTIONS FOR USE

Thoroughly wet coils, etc. that are to be cleaned. Spray **GREEN COBRA** on at your recommended rate and let the alkalinity do the work. Grease, oxidation, dirt, lint and baked on residues will dissolve and are easily washed away.
