

CAR SHAMPOO

CONCENTRATED BIODEGRADABLE HEAVY DUTY CAR/VEHICLE WASH

DESCRIPTION

CAR SHAMPOO offers a new approach to surface cleaning which greatly reduces time and effort. Large or complicated surfaces and inaccessible areas can be stripped of grime and light grease without the need for rubbing and scrubbing. Simply dilute **CAR SHAMPOO** with water, spray onto surface, allow to dry and rinse off with a low pressure water spray.

APPLICATIONS

Automotive Industry, Bus Companies, Trucking Companies, Municipalities and Railways.

For use where protection of painted surfaces is paramount, ie prestige cars, buses, trucks, trains etc.

TECHNICAL DATA

FORM: Liquid
ODOUR: Characteristic
COLOUR: Blue
DETERGENCY: Excellent
TOXICITY: Nil
WETTING ABILITY: Excellent
STORAGE ABILITY: 2 years
COLD STABILITY: Yes
PHOSPHATES: 80g/L

FLASH POINT: Nil
FLAME EXTENSION: Nil
SOLUBILITY IN WATER: Yes
SPECIFIC GRAVITY: 1.0 to 1.05
%VOLATILE BY VOLUME: 75%
pH: 8.5
PROPELLENT: Nil
EVAPORATION RATE: Slow
BIODEGRADABILITY: Contains phosphates

LABEL INFORMATION

CAR SHAMPOO is a concentrated anit-corrosion formula which penetrates heavy grime and strips road grime, soot and fuel deposits. Effective even at high dilution rates. Biodegradable and mild to use. Will not adversely effect any washable surface. Safe on quality polishes – dries streak free

DIRECTIONS FOR USE

SPRAY ON – HOSE OFF

Dilute one part of **CAR SHAMPOO** with 20 parts water. Spray mixture onto vehicle starting at the bottom and working up. Allow about ten to fifteen minutes penetration time. Rinse thoroughly using a strong water jet. Rinse until all foam is removed from surfaces.

CAUTION: Avoid washing hot surfaces. If necessary, cool vehicle with water before commencing.

HAND WASHING

Use one half to one full cup of **CAR SHAMPOO** to a bucket of water (10 litres). Apply with a broom or sponge. Rinse well.

LIGHT DEGREASING

Use one part of **CAR SHAMPOO** to nine parts of hot or cold water. Rinse well after a few minutes penetration time.
