

MA DEGREASER

DESCRIPTION

MA DEGREASER is a solvent boosted cleaner degreaser with a blend of selected emulsifiers, coupling agents, water softeners and surfactants. These combine to form a very efficient and economical cleaner degreaser.

The quick break formula allows for rapid separation in Coalescent Plate Interceptors.

MA DEGREASER will not effect plastics, rubber, automotive finishes or un-reactive finishes. May be brushed, sprayed or used as foam. Has built in corrosion inhibitors. Has no petroleum solvents or phenolic.

APPLICATIONS

Restaurants, Hospitals, Abattoirs, Hire Companies, Workshops, Marine Bilge Cleaning, Panel Beaters, Fitting Shops, Engineering, Tyre Repairs, Mining, Earthmoving Contractors, Refrigeration Industry, Hospitality, Shire and City Councils and Electricity Boards.

TECHNICAL DATA

FORM: Liquid	FLASH POINT: N/A
ODOUR: Slight alkali	BOILING POINT: 105-117°C
COLOUR: Green	SOLUBILITY IN WATER: Miscible
SPECIFIC GRAVITY: 1.07	DETERGENCY: Excellent
TOXICITY: Non-hazardous	% VOLATILE BY VOLUME: 82.0
WETTING ABILITY: Saturates	pH: 12.2 @ 5%
STORAGE ABILITY: Indefinite	VISCOSITY: Thick
COLD STABILITY: N/A	EVAPORATION RATE: N/A
PHOSPHATES: N/A	BIODEGRADABILITY: 100%

DIRECTIONS FOR USE

FOAM

Spray and let **MA DEGREASER** sit for 2 to 5 minutes, then rinse with high pressure washer.

MOP or BRUSH

Agitate and then wash or mop residue away for cleaner finish.
