

LANO LUBE GREASE

DESCRIPTION

LANO LUBE GREASE is the 100% form of natural wool grease. Totally non-toxic and safe to use, **LANO LUBE GREASE** is able to be used in a wide number of applications, ie anti-sieze compound, lubricant, battery terminals etc. **LANO LUBE GREASE** may be heated in a microwave to allow for heavy duty coating. Whilst liquid, it may be painted by brush or sprayed. This gives 100% lanolin protection

APPLICATIONS

LANO LUBE GREASE has exceptional water displacing properties suited to the marine industry - wire ropes, cables, pulleys - and can be used as an anti-foulant on hulls and propellers. Protects timber, leather, rubber, vinyl, plastic and much more.

TECHNICAL DATA

FORM: Solid
ODOUR: Lanolin
COLOUR: Dark Brown
DETERGENCY: Poor
TOXICITY: low
WETTING ABILITY: Poor
STORAGE ABILITY: 1 Year
COLD STABILITY: Good
PHOSPHATES: Nil

FLASH POINT: Not Flammable
FLAME EXTENSION: NA
SOLUBILITY IN WATER: Emulsifies
SPECIFIC GRAVITY: 0.93g/ml
%VOLATILE BY VOLUME: 0%
pH: NA
PROPELLANT: Nil
EVAPORATION RATE: Nil
BIODEGRADABILITY: Yes

DIRECTIONS FOR USE

Apply by brush, trigger spray or airless sprayer
