

CITRASOLVE

TAR SOLVENT

DESCRIPTION

CITRASOLVE is a combination of natural biodegradable and hydrocarbon solvents – designed specifically to remove bitumen and tar.

CITRASOLVE may be used in conjunction with MA TRUCK WASH to give a thick clinging action which allows **CITRASOLVE** to penetrate and wash off effectively.

APPLICATIONS

Walls, Floors, all types of Machinery, Road Resurfacing, Patching Trucks, Flocon Trucks, Sprayers, Brooms and Shovels.

TECHNICAL DATA

FORM: Liquid	FLASH POINT: 53°C
ODOUR: Mild citrus	BOILING POINT: 155°C
COLOUR: Lime	SOLUBILITY IN WATER: Emulsifies
SPECIFIC GRAVITY: N/A	DETERGENCY: Excellent
TOXICITY: N/A	%VOLATILE BY VOLUME: 95%
WETTING ABILITY: Excellent	pH: 8
STORAGE ABILITY: 1 year +	VISCOSITY: Thin
STABILITY: N/A	EVAPORATION RATE: Slow
PHOSPHATES: Nil	BIODEGRADABILITY: No

LABEL INFORMATION

CITRASOLVE is very concentrated and is best diluted with **Minehan Agencies TRUCK WASH** and water.

DIRECTIONS FOR USE

Spray a mixture of **CITRASOLVE** and **Minehan Agencies TRUCK WASH** onto area to be cleaned and allow to soak for between 5 and 15 minutes. Use pressure washer to remove contaminants.

If you are trying to remove tar from plastic try on an inconspicuous part first.
