

COIL-SHINE RTU - AEROSOL
HEAVY DUTY ALKALINE COIL CLEANER**DESCRIPTION**

COIL-SHINE is a very powerful alkaline coil and condenser cleaner. The surfactants, emulsifiers and penetrating action of **COIL-SHINE** help to clean deep within coils and to help bring contaminants out of coils and condensers. This will help with airflow enormously and will make a huge difference to the "Head Pressure" of the Air Handling System.

APPLICATIONS

Refrigeration Companies, Mining Companies and Maintenance Crews.

RTU Coilshine is a heavy duty foaming coil cleaner which is developed to pull all bauxite and coal dust as well as dirt, grime and oxidation out of the coil fins. Highly alkaline. Do not spray on soft metals.

Pre wet coils to be cleaned before spraying with Coilshine.

Allow to stand for between 2 and 4 minutes, then rinse thoroughly with water.
