PHOSPHATES: No
FLAME EXTENSION: LEL 3.5% - UEL 19%

ODOUR: Mango
SOLUBILITY IN WATER: Partial
SPECIFIC GRAVITY: 0.85g/ml
% VOLATILE BY VOLUME: 100%
pH: N/A
COLD STABILITY: Yes
BIODEGRADABILITY: Yes
FLASH POINT: 15°C (PMCC)
PROPELLANT: N/A

DIRECTIONS FOR USE

Depending on the size of the room or area, spray once between the wall and the floor - in the air or on the surface. If the odour is particularly bad it may require a second spray on the opposite side of the room.

A normal hotel bathroom requires one spray only.

DO NOT spray too much as it is concentrated and very strong.
