

CARIBBEAN SPICE

CONCENTRATED LIQUID LAUNDRY DETERGENT

DESCRIPTION

CARIBBEAN SPICE is a modern approach to the age old problem of washing clothes effectively. It overcomes the problems of dissolving powders, localised effects on clothes due to powder entrapment, etc. because being a liquid it is totally soluble and instantly soluble, making this an ideal product for all laundry needs. Being a liquid, **CARIBBEAN SPICE** can be automatically dispensed into the wash, thus eliminating operator over use. **CARIBBEAN SPICE** combines all the necessary ingredients to give a perfect wash every time. **CARIBBEAN SPICE** is totally biodegradable and very user friendly.

APPLICATIONS

Laundries, Hospitals, Motels, Clubs and Households etc.

TECHNICAL DATA

FORM: Liquid	FLASH POINT: Nil
ODOUR: Spice	FLAME EXTENSION: Nil
COLOUR: Pink/Red	SOLUBILITY IN WATER: Yes
DETERGENCY: Excellent	SPECIFIC GRAVITY: 1.0 to 1.15
TOXICITY: N/A	%VOLATILE BY VOLUME: 65%
WETTING ABILITY: Excellent	pH: 8-9
STORAGE ABILITY: 2 years	PROPELLENT: Nil
COLD STABILITY: Yes	EVAPORATION RATE: Slow
PHOSPHATES: 80g/L	BIODEGRADABILITY: Contains phosphates

DIRECTIONS FOR USE

For most machines, whether top or front loading types, the amount of detergent required depends on the degree of soiling.

Light soils: 140-280ml per 45kg of dry fabric

Heavy soils: 280-420ml per 45 kg of dry fabric

If localised heavy soiling is present, pour a little detergent on the stain followed by a quick rub before machine washing.
