

LANO LUBE

AEROSOL

DESCRIPTION

LANO LUBE is a versatile lubricant/penetrant that displaces moisture and protects metal parts from the elements. An excellent product for use around the marine environment. Best results when **LANO LUBE** is used on clean, dry and descaled metal surfaces.

APPLICATIONS

Ideal anti-splatter and release agents. **LANO LUBE aerosol** repels water easily and helps to waterproof leather, vinyl, canvas and plastic.

TECHNICAL DATA

FORM: Aerosol	FLASH POINT: <63°C
ODOUR: Lanolin	FLAME EXTENSION: 0.6%(LEL) - 7.0%(VEL)
COLOUR: Brown	SOLUBILITY IN WATER: Emulsifies
DETERGENCY: Poor	SPECIFIC GRAVITY: 0.84g/ml
TOXICITY: Poison S5	%VOLATILE BY VOLUME: 80%
WETTING ABILITY: Poor	pH: NA
STORAGE ABILITY: 1 Year	PROPELLANT: Butane
COLD STABILITY: Good	EVAPORATION RATE: Slow
PHOSPHATES: Nil	BIODEGRADABILITY: Yes after solvent evaporates

DIRECTIONS FOR USE

Spray directly onto surface. Hold can approximately 15cm from target and spray evenly over the entire area to be protected.
