

FLEETMASTER HARVEST KLEEN

Heavy Duty Vehicle and Equipment Cleaner/Degreaser

DESCRIPTION

FLEETMASTER HARVEST KLEEN is designed with Australian conditions in mind. Designed to remove heavy road film with minimal agitation. FLEETMASTER HARVEST KLEEN should not be allowed to dry on glass or paint work. FLEETMASTER HARVEST KLEEN may be used in conjunction with solvents as a parts washing detergent at a rate of approximately 10 litres FLEETMASTER HARVEST KLEEN to 20 litres solvent. Ideal for use before painting earthmoving equipment.

APPLICATIONS

FLEETMASTER HARVEST KLEEN breaks the electrostatic bond of heavy metals, ie: lead, zinc, copper, bauxite and normal road film commonly found in Australia, emulsifies grease, oil and dirt thus making it simple to clean with a pressure washer or steam cleaner. FLEETMASTER HARVEST KLEEN has effective corrosion inhibitors to stop rust in chassis seams etc.

TECHNICAL DATA

FORM:	FLASH POINT: Not Flammable
ODOUR: Faint	FLAME EXTENSION:
COLOUR: Clear Green	SOLUBILITY IN WATER: Soluble
DETERGENCY:	SPECIFIC GRAVITY: 1.05g/ml (water =1)
TOXICITY:	%VOLATILE BY VOLUME: 70%
WETTING ABILITY:	pH: 9-10
STORAGE ABILITY:	PROPELLANT:
COLD STABILITY:	EVAPORATION RATE: Slower than butyl acetate
PHOSPHATES:	BIODEGRADABILITY:

DIRECTIONS FOR USE

FLEETMASTER HARVEST KLEEN may be used in conjunction with solvents as a parts washing detergent at a rate of approximately 10 litres FLEETMASTER HARVEST KLEEN to 20 litres solvent. Ideal for use before painting earthmoving equipment.
