

SAFE SCALE
INDUSTRIAL ACID CLEANER

DESCRIPTION

Safe Scale is a heavy duty cleaner designed for the concreting and tiling industry. Low odour and safe descaling non-corrosive, non-hazardous formulation. Developed to remove the Portland Cement from trowels, shovels, wheelbarrows, cement mixers and all types of form work. Sprayed liberally, concrete will turn to a soft sludge that can be washed off easily with water. Light grease and oil may also be removed.

APPLICATIONS

For use by anyone involved in the concreting industry for the cleaning of hard surfaces.
For use on tiles, concrete floors, etc. . Ideal for the tiling industry.

TECHNICAL DATA

FORM: Liquid
COLOUR: Amber
DETERGENCY: Excellent
TOXICITY: Non-Toxic
WETTING ABILITY: Excellent
STORAGE ABILITY: 2 Years
COLD STABILITY: Stable
PHOSPHATES: Nil

ODOUR: Sweet Acidic
SOLUBILITY IN WATER: 100%
SPECIFIC GRAVITY: 1.02
%VOLATILE BY VOLUME: N/A
pH: 1 - 2
EVAPORATION RATE: Slow
BIODEGRADABILITY: Yes

DIRECTIONS FOR USE

Safe Scale is ideal for tiles as it will not cause damage to stainless steel and good chrome fittings. Excellent for regular maintenance of tiles in bathrooms at accomodation establishments. Very safe on all concreting tools, trowels, wheelbarrows, buckets, etc.
