

LANO LUBE PLUS

LUBRICATING AND PENETRATING SPRAY

DESCRIPTION

LANO LUBE PLUS is a heavy duty lanolin lubricant. **LANO LUBE PLUS** has exceptional long term corrosion preventative properties. **LANO LUBE PLUS** will lubricate, penetrate and protect all types of equipment as well as being a non-conductive and dewatering product.

APPLICATIONS

LANO LUBE PLUS may be used on formwork as a release agent, car rustproofing and to protect, dry, clean and descale metal surfaces.

TECHNICAL DATA

FORM: Liquid
ODOUR: Lanolin
COLOUR: Dark Brown
DETERGENCY: Poor
TOXICITY: Poison S5
WETTING ABILITY: Poor
STORAGE ABILITY: 1 Year
COLD STABILITY: Good
PHOSPHATES: Nil

FLASH POINT: 78°C
FLAME EXTENSION: 0.6%(LEL) - 7.0%(VEL)
SOLUBILITY IN WATER: Emulsifies
SPECIFIC GRAVITY: 0.85g/ml
%VOLATILE BY VOLUME: 60%
pH: NA
PROPELLANT: NA
EVAPORATION RATE: Slow
BIODEGRADABILITY: Yes after solvent evaporates

DIRECTIONS FOR USE

Apply by brush, trigger spray or airless sprayer
