

MASK 250

Carpet and Upholstery Cleaner

DESCRIPTION

MASK 250 is a general purpose carpet and upholstery stain remover for use by professional cleaners. It is a clear coloured liquid with a very mild odour. Safe to use on all carpet and upholstery fibres, non toxic to cleaning personnel and non corrosive to the trigger sprayers normally used for application. It does not cause resoiling of the carpet. MASK 250 is water based and mixed readily with water to facilitate removal be extraction when this is required.

APPLICATIONS

General purpose carpet and upholstery stain remover for use by professional cleaners. It is a clear coloured liquid with a very mild odour. Safe to use on all carpet and upholstery fibres, non toxic to cleaning personnel and non corrosive to the trigger sprayers normally used for application.

TECHNICAL DATA

FORM:	FLASH POINT: Not Flammable
ODOUR: Baby Powder	FLAME EXTENSION:
COLOUR: Clear	SOLUBILITY IN WATER: Soluble
DETERGENCY:	SPECIFIC GRAVITY: 1.01g/ml (water =1)
TOXICITY:	%VOLATILE BY VOLUME: 90 %
WETTING ABILITY:	pH: 8.5-9
STORAGE ABILITY:	PROPELLANT:
COLD STABILITY:	EVAPORATION RATE: Slower than butyl acetate
PHOSPHATES:	BIODEGRADABILITY:

DIRECTIONS FOR USE

Pre-test this product on a small, inconspicuous area of your carpet to ensure colour fastness. For best results, thoroughly vacuum carpets before cleaning. Portable Machines: dilute 1 part MASK 250 to 50 parts water. Defoamers are necessary only if carpets have been previously shampooed. Truck Mounted Units: Dose mark-up tank at the rate of 1 part MASK 250 to 10 parts water. Set metre to feed correct amount of solution to obtain desired cleaning results. Spin Bonnet Method: For heavy traffic areas, dilute 1 part MASK 250 to 10 parts water. Change solution after cleaning approximately 90sqm of carpet.
