

PEAK BLUE EXTRA GREASE

LITHIUM COMPLEX GREASE NLGI 2

DESCRIPTION & APPLICATION:

PEAK Blue Extra Grease is a premium, multipurpose high temperature lithium complex NLGI 2 grease, designed to meet the demands of the most hostile grease applications and conditions. It is recommended for use in most types of automotive, agricultural and industrial applications including heavy-duty service.

PEAK Blue Extra Grease is particularly suitable for use in steel mills, underground tunnelling, mining and ore crushing plants, automotive wheel bearings, rolling element bearings, plain bearings, chassis parts, gears and couplings.

BENEFITS:

- High thermal and mechanical stability along with excellent resistance against rust and corrosion.
- High load carrying capacity which protects equipment against extreme loading
- Excellent EP and anti-wear properties resulting in reduced bearing component wear.
- Good water resistance against water spray & washout.
- Excellent EP and anti-wear properties resulting in reduced bearing component wear
