

PEAK WHITE OIL 22

PREMIUM MINERAL WHITE OIL

PRODUCT DESCRIPTION

PEAK WHITE OIL 22 is a white mineral oil specially processed and packaged to ensure full compliance with the purity standards of the U.S. Pharmacopoeia (USP) and British Pharmacopoeia (BP).

PEAK WHITE OIL 22 complies with U.S. Food and Drug Administration (FDA) Regulation CFR 172.878 for light mineral oil that is permitted to be included, within restrictions, in foods and CFR 178.3620 (a) for mineral oil for use in non-food articles that will come in contact with food. Suitable in a wide variety of food processing and packaging operations where a lubricating oil used as a processing aid may be included in a food or food packaging material.

PEAK WHITE OIL 22 can be used in the manufacture of pharmaceutical and cosmetic products, including ointments, creams, and massage oils. It also serves as a plasticiser for hydrocarbon resins and a process oil in applications that require extremely low sulphur content. In addition, it functions as a lubricant for sewing, knitting, and cloth-cutting machines, especially where a stainless mineral oil is needed. Other industrial uses include agricultural sprays, organic synthesis, plastics manufacturing, and animal husbandry.

BENEFITS

- High degree of purity, water-white product that contains no toxic impurities
- Exceeding oxidation and light stability of standard process oils
- Highly versatile suitable for a wide range of applications

CHARACTERISTICS

| Test | Typical Value |
|---------------------------------|---------------|
| Density 15° C g/cm ³ | 0.84 |
| Viscosity @ 40°C cSt | 21.5 |
| Flash Point °C | >210 |
| Colour | Saybolt +30 |
| Odour | Odourless |
| Polycyclic Aromatics | Passes |
| Carbonisable Substances | Passes |

PRODUCT SIZE

| Part Number | Size | Carton Qty | Pallet Qty |
