

PEAK ENGINE STOP LEAK

ENGINE OIL ADDITIVE

PRODUCT DESCRIPTION

PEAK ENGINE STOP LEAK is a cost-effective solution designed to seal minor engine oil leaks and help prevent future ones. Over time, seals and gaskets can shrink and lose their flexibility due to heat and prolonged use, leading to oil loss and potential engine damage. This formula works while you drive, restoring the integrity of seals to keep your engine running smoothly.

PEAK ENGINE STOP LEAK contains advanced seal-conditioning agents that gently soften and expand rubber and synthetic seals, rejuvenating them to stop existing leaks and reduce further oil consumption. Regular use can help extend the life of your engine and reduce costly repairs.

BENEFITS

- Eliminates minor engine oil leaks while driving
- Helps prevent future leaks and reduces oil consumption
- Conditions and revitalises worn seals and gaskets
- Supports longer engine life and improved reliability
- Compatible with all engine oils, including synthetic

DIRECTIONS

- Add contents to engine crankcase. One 325mL bottle treats up to 4L of oil.
- Do not overfill. Drive the vehicle as normal.
- For best results, allow several hundred miles of driving.

CHARACTERISTICS

Test	Typical Value
Density 15° C g/cm ³	0.85
Viscosity @ 40°C cSt	28
Flash Point °C	>200
Colour	Dark Red

PRODUCT SIZE

Part Number	Size	Carton Qty	Pallet Qty
PKADPESL.325	325 mL	24	
PKADPESL020	20 Litre		32
