

PEAK DPF CLEANER

DIESEL FUEL ADDITIVE

DESCRIPTION & APPLICATION:

PEAK DPF (Diesel Particulate Filter) Cleaner is designed to remove more than 80% of the soot particles created by incomplete combustion in diesel engines. These particles accumulate in the DPF and block the exhaust flow that can cause a range of issues such as engine performance reduction or the vehicle going into limp mode.

PEAK DPF Cleaner is formulated to be used in passenger cars, light and heavy duty commercial vehicles, trucks, buses & other machinery fitted with a DPF.

BENEFITS:

- Compatible with bio-diesel fuels
- Contains combustion enhancers to increase burn temperature
- Helps clean DPF and improves DPF efficiency and life
- Improves low temperature starting
- Improves throttle response and engine performance
- Increases power

TYPICAL CHARACTERISTICS*:

TEST	TYPICAL VALUE
Density 15° C g/cm ³	0.950
Flash Point °C	>75
Physical State	Liquid
Colour	Amber

PRODUCT SIZES:

PRODUCT CODE	PACK SIZE	CTN QTY
PKADDPFC.325	325 ML	12

HOW TO USE:

1. Add before filling the fuel tank
2. A bottle of the Peak DPF Cleaner will treat up to 80 litres
3. Recommended to use regularly to maintain optimum diesel performance and keep the DPF Clean

Health, safety and environmental information is provided on the Safety Data Sheet (SDS) for this product.

*Typical characteristics are provided as a guide only and are subject to manufacturing tolerances. They however do not constitute any legal liability. Information is correct at time of publishing.
