

PEAK ENGINE TUNE-UP

ENGINE OIL ADDITIVE

DESCRIPTION & APPLICATION:

PEAK Engine Tune-Up is a high-performance product used to dissolve gums and oil residue which accumulates in hydraulic lifters and lash adjusters, restoring full operation and elimination of rattling noises.

PEAK Engine Tune-Up Extends engine life and maintains engine cleanliness via reduction of oil system deposits, which if left unchecked will lower essential component life and rob engine of power and efficiency

BENEFITS:

- Maintains operation of P.C.V. and pollution control systems
- Maintains internal cleanliness of engine
- Assists in reducing engine smoking and excess oil consumption
- Can be left in engine for complete service interval to gently clean the engine
- Provides stabilized compression on a long-term basis.

TYPICAL CHARACTERISTICS*:

TEST	TYPICAL VALUE
Density 15° C g/cm ³	0.877
Flash Point °C	>65
