

PEAK BRAE 150

PREMIUM MINERAL SLIDEWAY OIL

DESCRIPTION & APPLICATION:

PEAK BRAE 150 is a high-quality mineral based slideway oil. It is suitable to be used on slideways of the latest high precision machine tools, planers, lathes and guideways of other industrial equipment.

PEAK BRAE 150 is also used to lubricate bearings and gears and is suitable in machine tools with combined slideway and hydraulic systems.

BENEFITS:

- Excellent wear and corrosion protection, ensuring good equipment life and decreased downtime
- Friction and Tackiness properties help to minimise chatter and stick-slip operation and enable it to be used on both horizontal and vertical slideways.
- High Film Strength reduces contact and wear between slideway surfaces.
- Strong resistance to foam helps maintain a stable film in the transmission body, which minimizes foaming and ensures reliable lubrication
