

PEAK LITHIUM GREASE EP 000

LITHIUM GREASE - NLGI 000

DESCRIPTION & APPLICATION:

PEAK Lithium Grease EP 000 is a premium quality semi-fluid grease developed for use in closed gears and plain bearings.

PEAK Lithium Grease EP 000 is most suited for use in "self-levelling" applications or once through centralised automatic or semi-automatic lubrication system. It is also suitable for the lubrication of enclosed gears and bearings in poorly sealed gear cases and as a replacement for gear oils that cannot be retained in gearboxes due to worn seals.

BENEFITS:

- High degree of thermal & mechanical stability
- Provides superior protection against rust and corrosion
- High load carrying capacity which protects equipment against extreme loading
- Reduced oil separation.
- Excellent EP and anti-wear properties resulting in reduced bearing component wear
- Good water resistance against water spray & washout.
