

PEAK ECO SYN ULTRA SYN VP 50

FULL SYNTHETIC VACUUM PUMP OIL

DESCRIPTION & APPLICATION:

PEAK ECO SYN ULTRA SYN VP 50 is based on synthetic (PAO) base oils which have superior resistance to thermal cracking and chemical oxidation at high temperatures compared to mineral based oils.

PEAK ECO SYN ULTRA SYN VP 50 is suitable for more demanding applications with higher process loads (e.g. acids, chemicals) and elevated operating temperatures and can deliver up to 4 times more fluid life and superior performance in vacuum pump cylinders.

PEAK ECO SYN ULTRA SYN VP 50 can also be used to lubricate rotary vane pumps and recirculating vacuum pumps, cylinders, pump bearings and sealing glands. It is especially suitable for use in lubricating vacuum pumps operating in wet and humid conditions, as found in the dairy industry.

BENEFITS:

- Excellent demulsibility ensures it readily separates from water providing pump durability
- Outstanding thermal and oxidation stability characteristics permit higher operating temperatures and provides longer fluid life.
- Its non-corrosive and relatively high solvency properties helps reduce deposit formation keeping internal surfaces cleaner for longer.
- Being synthetic oil based makes it possible for the Rotary Pump to reach higher vacuum and faster.

TYPICAL CHARACTERISTICS*:

TEST	TYPICAL VALUE
Density 15° C g/cm ³	0.840
Viscosity 40°C cSt	54
Viscosity 100°C cSt	8.8
Viscosity Index	140
Flash Point °C	>220

PRODUCT SIZES:

PRODUCT CODE	PACK SIZE
PKIVACF050020	20 Litre
PKIVACF050205	205 Litre
PKIVACF0501000	1000 Litre

SPECIFICATIONS & PERFORMANCE LEVEL:

Health, safety and environmental information is provided on the Safety Data Sheet (SDS) for this product.
