ALKALI STRIP

CAUSTIC BASED PAINT STRIPPER

Active Constituent : 200 g/L POTASSIUM HYDROXIDE

Description

ALKALI STRIP is a non flammable heavy duty gel type paint stripper formulated to rapidly remove most organic coatings from all hard surfaces.

Application

ALKALI STRIP has been specifically formulated to remove all oil based paints from all hard surfaces. **ALKALI STRIP** is also effective in removing the majority of water based paints.

Features and Benefits

- ❖ Gel formulation so as to adhere to vertical surfaces.
- ❖ Methylene Chloride free formulation
- ❖ Highly concentrated for economy in use
- ❖ Very effective paint stripper.

Directions

1. Apply **ALKALI STRIP** to coating to be removed.
2. Leave on surface between 10 - 30 minutes depending on degree of difficulty of paint to be removed.
3. Remove blistered paint and excess stripper with a strong jet of water through a pressure sprayer. Water temperature should be at least 80° Celsius.
4. A second application may be required for some hard to remove paints. Ensure the surface is dry before a second application is undertaken.

Packaging

15 Litre polyethylene drums
