ALKA 90

HEAVY DUTY LOW FOAM DETERGENT

Active Constituent : 800 g/Kg SODIUM HYDROXIDE

Description

ALKA 90 is a powdered heavy duty alkaline detergent containing 88% caustic soda with inorganic and organic water conditioning compounds.

Application

ALKA 90 is a very effective detergent for cleaning heavy organic soils usually found in food processing plants.

Features and Benefits

- ❖ "Fit for Purpose" approved for use in food plants
- ❖ Will not corrode ferro based alloys
- ❖ Low foaming characteristics
- ❖ Highly concentrated for economy in use

Directions

ALKA 90 is used at a dilution rate of 1-2% w/v and is circulated through a C.I.P. system at 70-80°C.

Packaging

- ❖ 10 kg polyethylene pails

Health Hazard Information

- ❖ See separate Health and Safety Data Sheet, available on request.

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied. Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
