# BRILLIANT

## MACHINE DISHWASHING DETERGENT

**Active Constituent : 160g/L POTASSIUM HYDROXIDE 10g/L AVAILABLE CHLORINE**

### Description

**BRILLIANT** is a pale amber liquid based on a blend of heavy duty alkaline detergents combined with soil suspending agents, anti-scaling components and a stabilised chlorine de-staining agent.

### Application

**BRILLIANT** is formulated especially for use with Automatic Dispensing Equipment. This is a complete hands-free system which ensures optimum concentration and economy of use of detergent is maintained at all times. The dispenser involves the use of a potentiometric probe which "senses" detergent concentration in the wash tank and signals the pump when to add more detergent.

### Features and Benefits

- ❖ Concentrated liquid - ensures economical dose rates.
- ❖ Contains anti-scaling agents - minimises the need to de-scale the dishwasher.
- ❖ Contains soil suspending agents - prevents redeposition of soils.
- ❖ Chlorine based - removes and controls all tannin and protein stains.

### Directions

**BRILLIANT** is dosed automatically through the dispensing unit and maintained at a concentration of 1 - 2 gm /litre. Operating temperature is normally between 75 - 80°C. **BRILLIANT** should always be used in conjunction with SPOT-FREE (Rinse Aid) to ensure all washed articles are completely clean and dry.

### Packaging

◆ 5 Litre polyethylene drums ◆ 15 Litre polyethylene drums

### Health Hazard Information

See separate Health and Safety Data Sheet,  
available on request.

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied. Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
