**UDDERMATE Ready-To-Use**

**GLYCERINE ENRICHED  
 TEAT DIP AND SPRAY**

**Active Constituents**

**6.2 g/L CHLORHEXIDINE GLUCONATE**  
**EMOLLIENT : 100 g/L GLYCERINE**

**Description**

**UDDERMATE RTU** Glycerine Enriched Teat Dip and Spray is a "dual-use" product to assist in the control of mastitis in dairy cows and as an aid in preventing teat cracking and chapping

**Application**

**UDDERMATE RTU** Glycerine Enriched Teat Dip and Spray can be equally effectively used as a standard type teat dip or as an udder spray. Every cow should be treated with **UDDERMATE RTU** Glycerine Enriched Teat Dip and Spray after every milking to provide effective protection against mastitis.

# UDDERMATE Ready-To-Use

## GLYCERINE ENRICHED TEAT DIP AND SPRAY

### Method of Use

**UDDERMATE RTU** Glycerine Enriched Teat Dip and Spray can be used as a teat dip or udder spray and is ready-to-use, therefore no mixing or dilution is required.

#### *Restrains :*

Ensure teats are **CLEAN** and **DRY** before milking to reduce organic and bacterial contaminations and residues in the milk. If washing is required for heavily soiled udders or teats, ensure they are properly dried. Thoroughly spray or dip all teats after every milking.

**Dip:** Use a plastic or other non-metal type container, dip each teat of each cow after milking. Clean out dip cup as teat dip gets low. Do not top up the dip cup.

**Spray:** After milking, thoroughly spray the udder. Spray upwards from underneath the teats, not from the side and ensure the whole surface of each teat is covered.

### Packaging

◆ 200 Litre polyethylene drums ◆ 1000 Litre pods

### Health Hazard Information

See separate Health and Safety Data Sheet, available on request.

### APVMA Approval No
