G.R.2 Graffiti Remover

Description

G.R.2 is a clear amber liquid based on a blend of petroleum solvents and emulsifying agents developed specifically for the removal of graffiti. It contains a unique catalyst which dramatically decreases the removal time for any stripping process.

Application

G.R.2 is used specifically for the removal of graffiti from all substrates. These include brickwork (painted and unpainted), concrete, metal (galvanised, aluminium and steel) and timber surfaces.

Due to the fast action of **G.R.2** even graffiti on painted surfaces can be removed effectively with minimal attack to the paint underneath.
