EMOLAN

EMOLLIENT ADDITIVE FOR TEAT DIP AND SPRAY SOLUTIONS

Active Constituents

600g/L SORBITOL
200g/L PROPYLENE GLYCOL
3g/L ETHOXYLATED LANOLIN

Description

EMOLAN is formulated to be used as an emollient additive in teat dip and spray solutions. **EMOLAN** is formulated with a synergistic blend of non-ionic humectants to promote soft supple skin.

Application

EMOLAN is suitable for use in Hibitane, Chlorhexidine and Iodine teat sanitiser solutions. **EMOLAN** can be used to replace up to 10% of the water in teat sanitiser solutions. Regular use of **EMOLAN** will promote soft supple skin. **EMOLAN** should be used rather than paraffin or emulsified bloat oils which may deactivate the anti bacterial matter in the teat sanitiser solutions

Features and Benefits

FEATURES

Manufactured with filtered, deionised water.

pH neutral

Highly concentrated for economy in use

BENEFITS

Field trials have proven **EMOLAN** to be more effective than glycerine

Will not deactivate the active constituent of the teat sanitiser solution

Contains ethoxylated lanolin

EMOLAN

EMOLLIENT ADDITIVE FOR TEAT DIP AND SPRAY SOLUTIONS

Method of Use

DOSAGE AND ADMINISTRATION:

Dilute the teat sanitiser according to manufacturer's recommendation and add the appropriate amount of **EMOLAN**. After milking thoroughly spray or dip each teat of each cow with the made up solution of teat sanitiser and **EMOLAN**.

The addition of emollients to the final solution which already contain an emollient (to a level about 10% total emollient) may affect the efficacy of the teat sanitiser.

Packaging

◆ 20 Litre polyethylene drums ◆ 120 Litre polyethylene drums ◆ 200 Litre polyethylene drums

Health Hazard Information

See separate Health and Safety Data Sheet, available on request.

APVMA Approval No
