PHOSS DET

Acidic Foaming Detergent Sanitiser

Description

PHOSS DET is a clear liquid, which is a highly concentrated acidic foaming detergent sanitiser used for the foam cleaning of external surfaces in food preparation areas.

Application

PHOSS DET is used for the removal of hard water calcium and lime deposits, soap scum, mineral stains and rust stains. Surfaces such as bricks, ceramic tiles and masonry surfaces would be suitable for cleaning and sanitizing with **PHOSS DET**.

The added detergency aids penetration of the acids into the surface to help lift other stains

PHOSS DET contains biodegradable surfactants. Always test **PHOSS DET** in a small, inconspicuous area, to ensure no detrimental effect on the surface to be cleaned.

Features and Benefits

- ❖ "Cleans & sanitises in one action"
- ❖ Highly Concentrated
- ❖ Removes water hardness salts on the surface being cleaned
- ❖ Suitable for all Food Processing Areas
- ❖ High Foaming
- ❖ Suitable for all types of water quality

Directions

PHOSS DET should be diluted 1:30 with cold water, depending on the nature of the surface. Pre-wet the surface before applying **PHOSS DET** to minimize the possibility of etching or discolouring the surface. Once prepared, apply the diluted solution of **PHOSS DET** and agitate the stained area with a scrubbing brush or pad to remove any stain. Rinse the cleaned area twice with potable water to remove all traces of detergent

Packaging

- ◆ 15 litre Polyethylene drum
- ◆ 200 litre Polyethylene drum
