

VPS Diesel Injector Cleaner

VPS Diesel Injector Cleaner is a new multifunctional additive developed to overcome problems associated with vehicles using diesel distillate fuel.

VPS Diesel Injector Cleaner offers significant improvements in operating efficiency, overcoming poor fuel economy, injector fouling and the possibility of costly engine repairs.

Protection against corrosion in fuel tanks, lines, pumps and injectors. Improves lubricity of the fuel protecting the fuel pump, reduces deposit in all parts of the engine which can extend service life between overhauls.

Easy to Use:

Add VPS Diesel Injector Cleaner to fuel tank before filling. 350ml treats 100 liters of distillate.

Features and Benefits

- Keeps Injectors Clean
- Improves Cold Weather Starting
- Protects against Rust
- Extends Service Life
- Restores Power

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. PRODUCT INFORMATION

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request via your local sales office or 1800 804 658 or through our website www.valvoline.com.au

Protect the Environment

Take used oil to an authorized collection point. Do not discharge into drains, soil or water.

Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
