

## VPS Mass Air Flow & Throttle Body Cleaner

VPS Mass Air Flow and Throttle Body Cleaner is designed to safely clean delicate Mass Air Flow (MAF) sensors with the added benefit of cleaning a modern throttle body. VPS Mass Air Flow and Throttle Body Cleaner safely cleans the delicate, sensitive “hot wire” and “flat element” mass air flow sensors, the internal of the MAF and MAF wiring harness connectors.

VPS Mass Air Flow and Throttle Body Cleaner is ideal for cleaning modern throttle bodies including plastic throttle bodies, cleaning of the butterfly (throttle plate) and harness connectors.

---

### Features and Benefits

- Safely cleans Mass Air Flow (MAF) sensor
- Restore Mass Air Flow sensor to normal operation
- Cleans Throttle Body & Butterfly
- Safe to use on different types of material including plastics
- Improves drive ability
- Reduces hesitation and flat spots
- Can improve fuel economy and power
- Suited for different types of vehicle Mass Air Flow sensor

---

### Directions for use

#### Mass Air Flow Sensor cleaning:

- Refer to vehicle service or workshop manual for the safe removal of Mass Air Flow Unit.
- Ensure vehicle is turned off and locate Mass Air Flow sensor unit.
- Disconnect wiring harness and remove Mass Air Flow sensor unit.
- Spray VPS MAF & Throttle Body cleaner on the hot wire of flat film element.
- Spray VPS MAF & Throttle Body cleaner on all the internal surfaces of the MAF sensor unit.
- Spray VPS MAF & Throttle Body cleaner on the wiring harness connectors.
- Allow to dry completely.
- Reassemble Mass Air Flow sensor unit as per vehicle service or workshop manual.

#### Throttle Body cleaning:

- Refer to vehicle service or workshop manual for the safe removal of air intake system to access throttle body.
- Ensure vehicle is turned off and remove air intake system and locate throttle body.
- Place rag under throttle body for run-off.
- Do not over use as starting the engine may be difficult.
- Spray VPS MAF & Throttle Body cleaner on the internal surface of the throttle body.
- Manually move butterfly and Spray VPS MAF & Throttle Body cleaner in short bursts.
- Reassemble air intake system as per vehicle service or workshop manual.

# PRODUCT INFORMATION

## Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants including MaxLife™, the first motor oil specifically formulated for higher-mileage vehicles; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

Part Number	Pack Size
7265	150g

## Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request via your local sales office or 1800 804 658 or through our website [www.valvoline.com.au](http://www.valvoline.com.au)

## Protect the Environment

Take used oil to an authorized collection point. Do not discharge into drains, soil or water.

## Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
