

WD Spray Lube Multispray

A highly effective, multipurpose lubricant and rust preventative, containing synthetic corrosion inhibitors and water displacing properties. It is ideal for household, automotive, marine and industrial applications. It is formulated using exclusive Tectyl rust preventatives. This product can be used to help protect chrome, metal parts and mechanisms from corrosion with a transparent, non-staining, non-sticking film. It also insulates and helps eliminate moisture-induced shorts in electrical or ignitions systems.

Easy to Use:

For large open areas, simply hold can upright approx 15 to 20cm away from the part or area to be sprayed. If over spray occurs it can be easily removed with solvent or degreaser.

Features and Benefits

- Lubricant and rust preventative
- Transparent and non-staining film
- Penetrates in hard to reach areas
- Contains water displacing properties

Keeping the world moving since 1866™

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request via your local sales office or 1800 804 658 or through our website www.valvoline.com.au

PRODUCT INFORMATION

Protect the Environment

Take used oil to an authorized collection point. Do not discharge into drains, soil or water.

Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
