

VPS Fuel Injector Cleaner

Port fuel injection, direct fuel injection, throttle body fuel injection and carburetors are all designed to deliver fuel to the combustion chamber. In concert with these fuel metering devices, very sophisticated computer aided fuel systems are designed to provide precise air/fuel ratios. One of the major problems to proper air/fuel ratios is fuel system deposits. Fuel system deposits can negate all advantages gained from sophisticated hardware. Fuel economy suffers; emission rates soar; and drivability quickly deteriorates as power-robbing deposits as you drive. In most cases, drivability and power are restored in just one thankful of treated petrol.

VPS Fuel Injector & Carby Cleaner contains detergents designed specifically to remove deposits normally formed in fuel injectors and carburetors. Keeps your new car running like new by using VPS Fuel Injector & Carby Cleaner every 10,000 km.

Easy to Use:

To ensure proper mixing, add 350ml of VPS Fuel Injector & Carby Cleaner to the fuel tank before filling with petrol. Mechanical flushing with harsh solvent and expensive labour costs can be avoided by using VPS Fuel Injector & Carby Cleaner while you drive. Can be used in all types of Unleaded petrol.

Features and Benefits

- Cleans Injectors in One Tank full
- Provides Carburettor Cleaning
- Restores Engine Performance
- Keeps Fuel Injectors Clean
- One treatment lasts up to 10,000 Kilometres
- Helps Control Corrosion
- Safe for Catalytic converters and Oxygen Sensors

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants including MaxLife™, the first motor oil specifically formulated for higher-mileage vehicles; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

For more information on Valvoline products, programs and services please visit www.valvoline.com.au or contact the Technical Hotline on 1800 804 658 for product recommendations.

PRODUCT INFORMATION

This information only applies to products manufactured in the following location(s): Australia

Part Number	Pack Size
7253.20	20L

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request via your local sales office or 1800 804 658 or through our website www.valvoline.com.au

Protect the Environment

Take used oil to an authorized collection point. Do not discharge into drains, soil or water.

Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
