

VPS Carby Cleaner

VPS Carby Cleaner removes equipment coated with gum, varnish, carbon or dirt which becomes sticky and inefficient. Sticking PCV valves can cause excessive oil consumption. Sluggish chokes and throttle linkages increase fuel usage and harmful emissions. Gummy throttle plates and linkages can result in engine run-on. VPS Carby Cleaner is a blend of selected solvents, carefully formulated to maximize cleaning power.

Easy to Use:

Spray the external surfaces of the carburetor and wipe with a dry cloth. Start the engine and run for several minutes until hot. Stop engine, remove air filter from carburetor and spray approximately 10 seconds of Carby Cleaner into the air intake opening. Automatic Chokes, with engine off direct spray at both ends of choke valve while opening and closing by hand to ensure correct operation. To clean the PCV valve, ensure engine is off, insert plastic tube into open end of valve while working valve back and forth, disconnect valve at crankcase side of the PCV valve before cleaning.

Please Note: Always use in well ventilated area. Do not spray on painted surfaces or directly on to hot surfaces.

Features and Benefits

- Removes Gum, Varnish
- Sludge and Carbon Deposits
- Cleans Carburetors, Chokes
- PCV Valves and Throttle Linkages
- Safe for Catalytic Converters and Oxygen Sensors

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants including MaxLife™, the first motor oil specifically formulated for higher-mileage vehicles; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

For more information on Valvoline products, programs and services please visit www.valvoline.com.au or contact the Technical Hotline on 1800 804 658 for product recommendations.

This information only applies to products manufactured in the following location(s): Australia

PRODUCT INFORMATION

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request via your local sales office or 1800 804 658 or through our website www.valvoline.com.au

Protect the Environment

Take used oil to an authorized collection point. Do not discharge into drains, soil or water.

Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
