

VPS Super Degreaser

Valvoline Professional Series (VPS) Super Degreaser is a high quality, emulsifiable cleaning product used for degreasing, oil removal and the removal of oil/grime deposits from workshop areas. It is manufactured to give maximum cleaning power by incorporating a selective solvent and a biodegradable emulsifier. It can be washed away in emulsion form, carrying away with it the dissolved grease, oils etc. It may be applied by spraying, brushing or swabbing.

It is recommended for the cleaning and the removal of grease/grime from machinery, tools, engines, concrete driveways and floors. When dissolved, the oil or grime from a surface can be removed by washing or hosing with cold water. It can also be used to remove oily deposits from painted surfaces.

Please Note:

Painted surfaces are not harmed provided the degreaser is not permitted to be in contact with the surface any longer than is necessary to dissolve grease and dirt, and is washed away promptly.

Care should be taken to avoid accidental application or spillage to freshly painted surfaces. Should this occur, wash off immediately with water.

CAUTION: VPS SUPER DEGREASER is a Class B Flammable Liquid. Use in well-ventilated area and keep away from naked flames.

Do not apply the product on to hot surfaces.

Directions for use:

Apply VPS Super Degreaser to affected surface by spray or brush. Leave on affected surface as required to clean effectively, and wash off with water. Rinse thoroughly with low or high pressure water.

NOTE: Do not apply to wet surfaces, as VPS SUPER DEGREASER will not soften or dissolve oily deposits in the presence of moisture. Do not allow to dry on surface.

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants including MaxLife™, the first motor oil specifically formulated for higher-mileage vehicles; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

PRODUCT INFORMATION

Typical Properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline™ specifications, variations in these characteristics may occur.

VPS Super Degreaser	Typical
Density @ 15 °C, kg/L, ASTM D4052	0.795
Flash Point (COC), °C, ASTM D92	38
Colour, Visual	Green

This information only applies to products manufactured in the following location(s): Australia

Part Number	Pack Size
7255	400g
7255.20	20L
7255.51	205L

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request via your local sales office or 1800 804 658 or through our website www.valvoline.com.au

Protect the Environment

Take used oil to an authorized collection point. Do not discharge into drains, soil or water.

Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60 °C, exposed to hot sun or freezing conditions.
